Richard A. Meserve, Chairman
United States Nuclear Regulatory Commission

Dear Richard:

Thank you for your letter and information regarding the protective measures taken by the NRC. We support those measures and look forward to working with the NRC on regulatory and transportation issues.

South Dakota's state point-of-contact with the NRC is Robert McDonald with the Department of Environment and Natural Resources. Bob works with state and local agencies whenever he receives information regarding the regulation and transportation of nuclear products into or through South Dakota.

In closing, I would like to wish you every success in your new endeavor as President of Carnegie Institution of Washington. Thank you, again, for the information. We will not hesitate to contact the NRC if any questions arise.

Sincerely,

M. Michael Rounds
